

**Petition for Alternative Graduation Participation**

An exception to policy is requested for the following student who would like to “walk through” the Spring (May) commencement exercises with the student’s cohort. It is acknowledged that (1) the Master of Social Work degree will not be granted until the actual semester that ALL requirements for the degree have been completed, and that (2) University policy requires students to be enrolled for a minimum of three academic credit hours in the semester they intend to graduate.
